

# The result of flexible thinking: Mobile protection plates

**The ideal alternative towards  
steel and plywood products**

## The advantages:

- Ideal substitute for heavy steel plates.
- Protects groundwork, lawns, pavements and sportgrounds.
- Installed manually and uplifted from site by integral handles.
- No cranes (unloading) or trailer (removal) required.
- To be used, either temporary or as fixed application.

## The features:

- Light weight & flexible, exceptional strength
- Chemical resistant, no rust, no rotting.
- Anti slippery (according to British Standard 812, Department of Transport TRRL).
- Withstands total wheel pressures of 12 tons and more. (\*)
- Easy to work with due to (optional) handles.
- Your logo of company name, professionally engraved (optional).

(\*) depending on surface conditions and type of plate

## The applications:

- All Public Works, Municipalities.
- Outdoor events, concerts, scaffolding.
- All muddy and sandy environments.
- Lawns, gardens, sport accommodations.
- Ramps and other unsteady and wobbly surfaces.
- Temporary parking facilities.
- Plant hire, all terrain vehicles, forklifts, (mini-) dozers, landscaping.
- Marquees, flooring and all other access purposes.
- Resurfacing, pavements, bricklaying and numerous others.....
